Re: Green Beetle Quarry Right-of-Way

Dear Mr. Johnson:

On July 1, 2008, the Bureau of Land Management (BLM) amended your right-of-way, (serial number UTU 81125) for a landscape rock quarry, milling and processing area, and access road near Rosebud, Box Elder County, Utah. The amendment allowed for the inclusion of an additional 2.5 acres of quarry to your right-of-way on federal surface estate. This right-of-way is set to expire on December 31, 2008.

This letter is to inform you that before this right-of-way can be renewed, you must complete reclamation of the 1.1 acre quarry that was part of the original right-of-way and which you had agreed to reclaim as part of BLM's amending your right-of-way to include the additional 2.5 acre quarry. Once you believe the reclamation has been completed as required, please contact this office for an inspection and approval of the work. Once we have approved the reclamation, we can then initiate the renewal of your right-of-way grant. Should you fail to complete the reclamation work as required, your right-of-way will expire and reclamation of the entire right-of-way grant would then be required.

Your contact person for inspecting the reclamation and processing this renewal is Dave Watson of my staff and his number is (801) 977-4368.

Sincerely,

Michael G. Nelson
Assistant Field Manager
Non-renewable Resources
